

The “Best Doctors” according to other doctors.

The results are in: *more* physicians at Englewood Hospital and Medical Center are chosen as “Best Doctors” than at any other hospital in the state. This is according to *New York Magazine’s* 14th annual Best Doctors issue, a list of first-rate doctors in the tri-state area as determined by physicians who choose peers to care for themselves or their family members.

We are proud of this official recognition of our medical staff’s expertise and commitment. Our board-certified physicians, award-winning nurses and superb clinical staff offer superior care that makes a difference in our patients’ lives.

For a referral to one of our 800 outstanding physicians, call 866.980.3462 or visit “Find a Physician” at englewoodhospital.com.
